Piece of Mind

An auto theft occurs about every 26 seconds in the United States, could you become a victim?

The answer is yes, so when it's time to protect your car and its contents - don't be fooled by out-dated vehicle tracking and theft recovery technology. Protect your vehicle with Mobiletrace®, the premier GPS tracking solution for stolen vehicle recovery and early theft detection and notification.

With Mobiletrace, we can track your vehicle's location, speed and direction throughout the U.S., Canada and Mexico— so thieves won't be able "escape" by driving out of police coverage areas as they can with other vehicle recovery products on the market. Plus, our early theft alert service warns you if your car is moved without authorization.

Mobiletrace® integrates state-of-the-art global positioning satellites, advanced wireless technology, the Web and 24/7/365 call center to find stolen vehicles fast. If your vehicle is ever stolen, call 1-888-217-2456. The professionals in our Mobile Angel Services center will work with law enforcement to track and recover your vehicle. Most recoveries are made within hours, and a fast recovery means the probability of less damage to your vehicle.

There's simply no other GPS Tracking and Vehicle Theft Recovery solution that comes close...GET MOBILETRACE, We'll Get It Back!

GPS Vehicle Locate

Real-Time Internet tracking of your stolen vehicle by our 24/7/365 response center for fast recovery.

Automated Theft Alert

Real-Time notification to your e-mail, or cell phone if your vehicles alarm is triggered or the Virtual Security fence has been violated.

24/7/365 Call Center

If your vehicle is ever presumed stolen, we can locate your vehicle and notify police to assist in its recovery.

Internet Tracking

Locate your vehicle online anytime and view its location instantly with three different map levels street, aerial or birds-eye views.

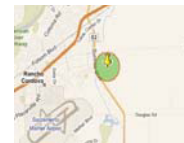

Nationwide Coverage

Our nationwide wireless network and GPS satellite technology provides a powerful vehicle location and theft recovery solution.

Virtual Boundary

When the virtual boundary (geo-fence) is enabled your vehicle will send an e-mail or text message when the vehicle crosses into or out of the Geo-Fenced Boundary.
