

Dear Customer,

Thank you for your interest in LoJack. By considering a state of the art LoJack package for your vehicle, you have taken an important step in helping protect it. Prices range from \$695 to \$995 and unlike other companies that charge large monthly, annual, and recovery fees, there are never any additional fees with LoJack. Please review the following packages to find a solution that best suits your needs:

- ***LoJack Early Warning System (our most popular package):\$995***
Our Early Warning System is our most popular package combining our LoJack Stolen Recovery System with our quick responding Early Warning Notification System. This added layer of protection alerts you by phone, email, or text message if your vehicle has been moved without your authorization. Thus, you will get your car back quicker, often with less damage and a good chance of catching the criminals as well. The product is guaranteed against workmanship for the first two years of ownership and you may extend the warranty if you wish to do so.
- ***LoJack Stolen Vehicle Recovery System: \$695***
Our entry level package uses a small hidden transceiver to send a signal to police which allows them to track and recover your stolen vehicle. With this system, you won't know that your vehicle was stolen until you notice it is gone. However, once you do, you call the police to start your activation. The product is guaranteed against workmanship for the first two years of ownership and you may extend the warranty if you wish to do so.
- ***Extended Recovery Warranty: \$99***
Our Extended Recovery Warranty enhances your LoJack Recovery system or Early Warning Recovery System by extending your LoJack 24-hour Limited Recovery and product warranty for as long as you own your vehicle. Regularly priced at \$149, you can save \$50 by combining this warranty with your system purchase.

Remember, these are one time charges and there are no monthly or annual fees or contracts to sign. In addition, when you purchase your LoJack directly from the company we will install your system for no extra charge Monday through Friday at your residence or place of business. If you have any further questions or would like to schedule an installation, please contact me directly at the number included with this package. I look forward to hearing from you!

Sincerely,

Dan Brocklehurst
